FULL STACK DEVELOPER

Calamba, Laguna | +63 966 805 6053 | rashidvisda@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Bachelor of Science in Computer Science

2025 – Present | City College of Calamba

Bachelor of Science in Computer Science - Completed 1st Year

2023 – 2024 | Holy Angel University

GWA: 1.2 (President's List equivalent)

EXPERIENCE

Web Development Intern — Scale.gg Ecosystem

June 2026 – Present | Ortigas, Philippines

- Built and launched the end-to-end sales funnel for **Paul Vargas Consulting**, developing the landing page with HTML, CSS, and JavaScript and configuring products and checkout through App.scale.gg.
- Implemented email automation workflows in Mailbaser and configured the course and community platform in Courses.gg with Stripe and PayPal checkout.
- Added tracking links, on-page SEO, and supporting funnel configurations to improve the customer journey from landing page to purchase and course delivery.

Freelance Web Developer

2024 – Present | Remote

- Delivered responsive websites and web applications for students and small clients, focusing on functional interfaces and responsive frontend development.
- Collaborated directly with clients to gather requirements, iterate on designs, implement revisions, and deploy completed projects.

PROJECTS

GadyetHub — Full-Stack E-Commerce Marketplace *Next.js · TypeScript · Supabase · PostgreSQL*

- Built a **full-stack e-commerce marketplace** for electronics with a **customer storefront + admin dashboard**, supporting **product management, order workflows, and inventory control**.
- Implemented **role-based authentication and authorization** with separate customer and administrator workflows.
- Developed API routes and real-time notifications for customer and administrative workflows, with a responsive dark/light interface.

Developer Portfolio v2 — *Next.js 16 · React 19 · TypeScript · MongoDB*

- Built and deployed a full-stack developer portfolio and content platform at **zidvds.site**, integrating **GitHub, Spotify, Codewars, WakaTime, Google Gemini, and Resend**.
- Developed an AI-powered chat assistant using **Google Gemini** to provide interactive information about the developer and portfolio.
- Built a complete blog system with **Markdown support, comments, administrative tools, and rate-limited API endpoints**.

Stash – Personal Finance Tracker — *Next.js 16 · Supabase · Tailwind CSS · Recharts · Zustand*

- Built a personal finance application for recording expenses, organizing spending by category, and visualizing financial activity.
- Used **Zustand** for client-side state management and Supabase for PostgreSQL-backed data persistence and authentication.

TECHNICAL SKILLS

- **Frontend:** TypeScript, JavaScript (ES6+), HTML5, CSS3, React, Next.js, Tailwind CSS, Shadcn/ui, Zustand
- **Backend:** Node.js, Express, REST APIs, Authentication, Better Auth
- **Databases & ORM:** Supabase, Drizzle ORM, Prisma, PostgreSQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Vercel, npm/yarn
